

"From the beginning of the battle before the first shots are a matter of seconds..."

From the start of the battle before the first shots are a matter of seconds... the emergence of hostile faces right behind you almost inevitably. Subjectively, the game begins to resemble militant network each tank is a real designer. Almost any of the modules can be improved. Whether it be engine or gun projectiles and the guidance system. © Obsidian Entertainment. All Rights Reserved. © Mail.Ru Group All Rights Reserved.
